

MedLeave

Absence Management Solutions

MedLeave is your dedicated resource for leave-related questions and requests.

MedLeave is available to provide assistance with leave administration based on Department of Labor (DOL) guidelines while considering the sensitivity surrounding a medical or family leave request.

The need for FMLA generally means that an employee and/or an immediate family member is experiencing a serious health issue. **MedLeave will assist employees as they navigate the leave process so they can focus on their own recovery or that of their family member.**

Contact MedLeave when you need to take a continuous or intermittent leave due to:

surgery

pregnancy

adoption / baby bonding

a family member with a serious medical condition needing care

your own serious medical condition
